	You are the head of the election committee in your village. Each Political party is associated with a unique number and the	RB
a cc	votes are represented as an integer array A. where each element contains the party number voted for by the villagers. For a party to win, they must have a majority of votes. our task is to find and return an integer value denoting the winning party's	
EMPBIEC	number. Return -1 if there is no party with a majority.	E039 TEX
	Note: If only one vote is there he is the winner.	£0,3
:5 <sup>E</sup> 039	Input Format:	c.
SEL	input1: An integer value representing the number the number of voters	STechics
C	input2: An integer array A representing the votes of the voters.	5
PRIECHIC	output Format:	.08
80	Return an integer value denoting the winning party's number.Return -1 there is no party with a majority	OTEMPR
ď.	Example 1:	5
,039 TEM	Input:	£03
.,0	6	,chi
ask.	112223	,
rechicsk	Output:	RES!
)	2	William
NPB	Explanation:	
TELE	As 2 got the most number of votes i.e 3.	49384
	Example 2:	Elgy
	Input:	
	6	Sign of the second
	121122	Miles
	Output:	Z)
	-1	(838E) MA
	Explanation:	3/5
